Reactions: UruhaKeita unlike another player use any mod/tools dualspace or clone apk. they using it but cant tell how shame. How to use Damage or god mode it'll be enough pls please aurcus online mod 30 years later.....? R.I.P I've been playing this game for a couple months, it's pretty nice. The graphics are decent, and the story is well thought out. I do have three urgent suggestions, which is why this is four stars:1. Make the grammar and spelling better in the story and character chat. Usually because of this I can't figure out what is going on in the story!2. Make it easier to customize your character after you've created it, I've asked several people and looked for a button somewhere, no solution.3. ABSOLUTE MUST!! This is a serious problem that I've read on the forums and other ratings. You NEED to make us be able to trade avatars, because I am SICK of getting Male avatars, and I want to trade them to a separate male account on my iPad. And I don't want to see any of your dumb Platinum ticket trash, because you're hoarding money from tired players who have worked ENDLESSLY to figure out a solution.Overall, this game is pretty fun.Please read my suggestions Asobimo! Amazing game, great work. - Fox2828, aka, Nova-----EDIT-Another thing. Whenever I try to get on my main account, Nova, it says, "Error logging in."
